WORK EXPERIENCE

April 2022 - present
UX Design Specialist
SAP Labs — Bangalore
I am a team member from Digital Supply Chain

Solving UI problems with amzing team of Enterprise Asset Management. My contribution till now:

Maintenance Managmenet

Digital Threads

May 2020 - April 2022
UX Designer
US Tech Solutions (**Cerner** | contract) — Bangalore
Working in the vertical 'order and clinical management' and solving issues of **50+ client members** for their **100 million patients**. My responsibilities are:

- Validations of the screens for the **accessibility** issues
- Gathering requirements through the clients from the **global market (US, Europe)** and following Cerner's user-centred design process to create solution and UI

June 2019 - Jan 2020
Associate UX Designer
Informatica — Bangalore

- **Quality Assurance** issues in the UI for the Data governance tool called Axon.

Nov 2018 - June 2019
UX & UI Designer
Netcore Solutions pvt lmtd — Mumbai

- Solved the issues of digital marketeers by giving a solution that impacted **5000+ Enterprise customers**.

  Conducted the **'design sprint'** to **redesign** of the 'email campaign' module of 'Smartech'. I was responsible for **user research, customer journey mapping, Information Architecture, wire-frames, user testing** and the **design system**
- Reorganized the **UI of 'Web-messages'** using netcore's design system.
- Successfully deployed **90+ templates** for web-messages.

July 2015 - July 2016
Associate Software Developer (SAP ABAP)
Accenture services private limited — Mumbai

EDUCATION

July 2016 - June 2018
Master of Design at
Centre for Product Design and Manufacturing,
Indian Institute of Science, Bangalore

August 2011 - June 2015
Bachelor of Engineering
(Computer Engineering) at
Sardar Patel Institute of Technology, University of Mumbai

ACHIEVEMENT

August 2020
Winning team (covicloud)
MIT covid 19 challenge
In a 48 hours of hackathon teamed with strangers, where pitched a solution as co.weCloud

PROJECTS

2020-21
co.WeCloud

- Post hackathon, designed a solution that provides consolidated information and bridges the gap between patient and medical facility.
- Validated our idea with IITM Ecell in their pre-encubation workshop.

2017-18
Smart solution for monitoring workers' health and vitals
Designed and Developed an IOT wearable as a major thesis and it is added portfolio for IISc - Industry 4.0

PUBLICATION

2019 - ICCIDS 2019
Design and development of an assistive device for the visually impaired
Procedia Computer Science Journal, Elsevier
